

Engineering roadmap

Domain-neutral RoadmapView example

Establish the public boundary

DONE

~2d
completed

RESULT

- A reusable boundary is documented and testable.
- Consumers retain ownership of project meaning.

DEMO

- Render the same view locally and in CI.

SPEC

Integrate a real consumer without constraining its authoritative planning prose

ACTIVE

~3d
forecast Oct

RESULT

- The consumer maps its planning model into compact RoadmapView data while keeping the original planning text complete and readable.
- Renderer layout adapts to wrapped content instead of imposing a fixed line-count contract on the consumer source.

DEMO

- Generate SVG and PDF from the compact view and inspect both outputs.

DESIGN

TEST

Qualify release behavior

PLANNED

RESULT

- Owner and consumer verification are green.

DEMO

- Rebuild the published roadmap from a clean checkout.
