

PURPOSE

Show one compact engineering slice with a readable descriptive summary separated from planning metadata.

RESULT

- Produce one observable result through the public path.
- Preserve enough detail for review without expanding the metadata line.

END DEMO

- Connect a sample client and inspect one generated result.
- Reconnect and verify current state before live updates continue.

DOCUMENTATION

SPEC R-70

TEST W-60

DOCUMENTATION / DECISIONS

D01 ~0.5d

DONE

Establish public boundary

Decision recorded in the public design documentation.

D02 ~1d · after D01

ACTIVE

Review consumer behavior

APPLICATION / PRODUCT

A01 ~1d · after D02

PLANNED

Implement one deterministic path

A02 ~0.5d · after A01

PLANNED

Expose observable state through the public interface

VERIFICATION / TEST

V01 after A02

PLANNED

Run black-box verification

PLANNING CHANGES

- 2026-09-30 — narrowed the first slice to one deterministic public path.
