

Engineering roadmap

Domain-neutral RoadmapView example

1

DONE
completed

Establish the public boundary

~2d

RESULT

- A reusable boundary is documented and testable.
- Consumers retain ownership of project meaning.

DEMO

- Render the same view locally and in CI.

ACTIVE
forecast Oct

Integrate a real consumer without constraining its authoritative planning prose

~3d

RESULT

- The consumer maps its planning model into compact RoadmapView data while keeping the original planning text complete and readable.
- Renderer layout adapts to wrapped content instead of imposing a fixed line-count contract on the consumer source.

DEMO

- Generate SVG and PDF from the compact view and inspect both outputs.

DOCUMENT STATUS

DESIGN TEST

3

PLANNED

Qualify release behavior

RESULT

- Owner and consumer verification are green.

DEMO

- Rebuild the published roadmap from a clean checkout.
